

# Retirement Planning starts with Medicare Education

## Consider Medicare if:

- You're turning 65 soon, or you celebrated your 65th birthday within the last 3 months
- You've moved recently and are Medicare eligible
- You're already covered by Medicaid but are now Medicare eligible
- You're over 65, still working and want an alternative to your employer's plan
- You're over 65 and planning to retire soon

Whether you are turning 65 soon or new to Medicare, now is a good time to learn about Medicare and how to choose a plan that may meet your needs.

## Take advantage of an opportunity to learn more about Medicare.

- We'll cover common questions such as:
- What's the difference between Medicare Parts, A, B,C and D?
- When can you enroll in a plan?
- How does your current plan compare with a Medicare plan?
- Can you save money with a Medicare plan?
- Could you be eligible for vision, dental, hearing and other benefits?
